// AMBITION
MADE BY ZEISS

Constantly pushing back boundaries – that is ZEISS's mission as a technology leader. Now ZEISS has developed a new family of products designed to unleash the performance of modern, high-resolution DSLR cameras: the ZEISS Milvus lenses for ZE and ZF.2 mount cameras.

From portraits and landscapes to architectural and street photography, ZEISS has the right focal length and the best imaging performance for every situation. With optimum image quality, full focus control, and a cutting-edge design, you can be confident of getting your subject and its creative potential firmly in the foreground, giving unique results every time.

The ZEISS Milvus lenses

Optimal image performance for all focal lengths

The Milvus lenses from ZEISS will impress you with their constantly excellent image performance across all focal lengths – regardless of whether they are used for portrait, landscape, event or other types of photography. The new Milvus lenses from ZEISS have been optimized for high-resolution cameras.

Whatever the application, their precise, manual focus ensures that the ZEISS Milvus lenses are the perfect tools to implement your creativity.

ZEISS Milvus 2.8/21
Master of horizons

The ZEISS Milvus 2.8/21 super wide-angle lens of the type ZEISS Distagon is the best in its class. Thanks to its maximum aperture of f/2.8, the reflection-free and practically distortion-free super wide-angle lens is perfect for spectacular image compositions of great diversity, dramatic contrast and vivid colors.

The further optimization of the lens coating reduces ghosting, flare and shading effects in critical lighting situations.

ZEISS Milvus 1.4/85

The champion of bokeh

The redesigned ZEISS Milvus 1.4/85 lens is particularly suitable for portrait photography. This lens is an absolute must for compositions where the main subject is to be sharply defined and emphasized against a beautiful bokeh background.

The purely spherical optical design and use of special types of glass ensure optimal micro-contrast and extremely low chromatic aberration. The result: outstanding photographs every time – with the champion of bokeh.

Focal length	85 mm

The moment photographers become filmmakers.

The new Milvus lenses from ZEISS.

Get your shots moving: the new ZEISS Milvus lenses will let you produce high-quality videos thanks to their long and precise focusing action. The de-click function enables ZF.2 mount users to adjust the aperture freely and smoothly, enabling professional results even in changing light conditions.

With its extremely high contrast rendition, this family of lenses caters to the most modern video standards of 6K and up. That makes ZEISS Milvus lenses a solid future investment for demanding filmmakers. Focus on what moves you.

Excellent video quality

- Constantly excellent image quality across the entire lens family
- Suitable for use on modern, high-resolution cameras (6K and more)
- Soft and cinematic bokeh

High precision

- Large rotation angle for precise focusing
- Additional de-click function for ZF.2 mount for continuous, finely controllable aperture adjustment

High-quality workmanship

- Robust all-metal barrel with weather and dust protection
- Modern and ergonomic product design
- Convenient, armored focus ring with optimal grip properties

Original accessories and care products from ZEISS

This puts the perfect finishing touch to the unique product experience offered by the ZEISS lenses.

ZEISS Lens Cleaning Kit

The ZEISS Lens Cleaning Kit is packed in a fabric belt bag and contains:

- Optics cleaning agent
- Dust brush
- Microfiber cloth
- 10 wet wipes
- User manual for professional lens care
- Bellows

ZEISS T* UV filters and POL filters (circular)

These filters with T*® antireflective coating optimally protect your front lens. The UV filters give your pictures more brilliance, and the POL filters reduce reflections on non-metallic surfaces and increase color saturation.

- High fit accuracy for fast filter change
- Can be used with a lens shade
- Available in all standard sizes

ZEISS Air Cell comfort camera strap

With patented Air Cell padding, this camera strap minimizes shoulder and neck strain, even with heavy equipment.

- High degree of wearing comfort with Air Cell padding
- Strap length adjustable at both ends
