

Diving into a world of virtual reality.

ZEISS VR ONE Plus

Future-proof and hygienic

The ZEISS VR ONE Plus is flexible and future-proof. As soon as a new smartphone is released, e.g. with a higher display resolution, the headset can be immediately used with the new device. Our universal tray allows the use of any smartphone with a display size of 4.7 to 5.5 inches.

If needed, the foam can be replaced. An easy-to-wash and disinfectable foam is available as an option and can be used, for example, for events.

Subject to change in design and scope of delivery and as a result of ongoing technical development.

Virtual reality (VR) makes you feel like you're delving into entirely different worlds any time, any place. In fact, this is already possible – with the ZEISS VR ONE Plus mobile virtual reality headset. All you need is your smartphone – so what are you waiting for?

An experience like no other

The ZEISS VR ONE Plus is comfortable to wear and delivers brilliant optics for virtual reality applications. Marvel at the razor-sharp images brought to life across the visual field. Manual adjustments for different interpupillary distances (PDs) are not necessary, making the ZEISS VR ONE Plus also suitable for people who wear glasses.

How it works

Want to dive into virtual worlds? Simply place your smartphone in the tray and launch one of the VR apps. New: the headset now supports smartphones with a display size of up to 5.5 inches, e.g. the iPhone 6s Plus. The removable head strap allows you to decide yourself whether you want to use your ZEISS VR ONE Plus with or without a headband, depending on your needs.

Unique flexibility with more than 1000 VR apps

You can use VR apps from the Apple App and Google Play Stores with the ZEISS VR ONE Plus immediately. The headset supports all types of hardware – so you can use your iPhone, Android and Windows devices.

So many possibilities!

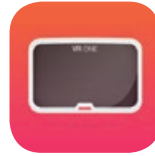

Are you looking for a 3D cinema experience, 360-degree concert videos, maybe a ride in a helicopter with first-person view (FPV) or a few 3D games? With the appropriate VR apps the ZEISS VR ONE Plus offers many breathtaking experiences!
