

Kaiser Star Cluster

LED Camera Light for digital cameras and camcorders

High-performance soft light for video and photography, especially useful when shooting videos with DSLRs and CSCs.

96 white High-CRI-LEDs on a 3.3 x 2.4 in. panel, color temperature approx. 5600 Kelvin (daylight), neutral color rendition, 600 lux illuminance at 3 feet distance, 60° angle of radiation (half-value angle), continuously dimmable.

Powered by five standard AA batteries or rechargeables housed in rear battery compartment or by a Canon LP-E6 battery (standard battery of Canon's 5D MK II, 7D and 60D). Operating time with fully charged batteries is 2.5 hours. Terminal for mains adapter.

Electronically stabilized light output keeping the illuminance constant when supply voltage goes down. Deep discharge protection for rechargeables.

Light comes with diffusion screen, artificial light filter (3200 K), both with magnetic fixtures, and swivel joint with standard foot for hot shoe and tripod thread.

Additional specifications:

- LED service life: approx. 30.000 hours
- Color rendering index (CRI) > 85
- Operating voltage: 5.8-16.8 V
- Dimensions: 127 x 77 x 45 mm (5 x 3 x 1.8 in.)
- Weight: 195 g (without batteries) (6.3 oz)
- Tripod thread: 1/4"
- Code no. 3270

Several lights can be combined side by side or on top of each other by an elaborate catching system.
