photokina, as one of the largest and most influential photo exhibitions in the world, is a strategic event for the entire photo industry. ILFORD will take the opportunity to display three strategic initiatives that create photographic quality.

- Truly **innovative** 3D Photographic formable silver halide media.
- Preview of the new **GALERIE Fine Art** range and latest **Wilhelm Imaging Research**.
- Range of **HP® Latex®** approved OMNIJET films.

We would be delighted if you could visit the ILFORD team during the show so that you can see the exciting new and innovative products on offer.
